

Eastern North America Candidate

Emily Popovich

Chief of Sales and Business Development
L3DFX
Primary Location: United States
Running for 1st term

ABOUT THE APPLICANT:

As an experienced industry veteran from various sides, for the past 20+ years, I appreciate and fully understand the value of service that helps our associations thrive. From 2005 to 2021 I was on staff with IAAPA and as such have a unique and vast network of connections from all sides of our industry - from suppliers and manufacturers to owners and operators, and all in between. Since resigning from IAAPA in 2021 I have been employed with two fantastic industry design and fabrication companies, while simultaneously serving on multiple committees in any "spare" time - including the IAAPA M&S Committee, IAAPA Space Allocation Committee, IAAPA Service Awards Committee, the TEA Finance and Sponsorship Subcommittee (volunteer member) and have recently been selected to serve on the TEA Industry Partnerships Committee, among others. This industry is my passion and my drive, and I look forward to continuing to serve back in all ways I can to benefit the TEA and their goals moving forward.

VISION FOR THE TEA

If selected as part of the TEA board, I will be diligent in ensuring growth for the association, developing new strategies that will help the staff in their goals and plans, connecting our members across the globe, and in my opinion the most important part - growing that membership to new heights.

SKILLS AND CORE COMPETENCIES

- Extremely well connected within our industry as well as non-endemic industries where there is great potential for additional growth
- Fluent in various languages

-Always accessible and willing to jump in as needed with various strategic planning, event planning and otherwise

-Expert in many areas within our industry, from a variety of angles, and globally connected to TEA members - and passionate in securing new members and initiatives
